MOLLY CHEN
832 282 5093 | mollymchen@gmail.com | LinkedIn | Website | GitHub | Seattle, WA

Product Engineer with 7 years of experience building customer-facing software, internal platforms, AI-powered workflows, and cloud-scale systems. Known for combining engineering execution with strong product intuition to ship high-impact features that improve business outcomes.

SKILLS

AI: Claude Code, Cursor, Codex, Langchain, Agentic workflows, Tray.ai, Ollama) | **Cloud & Infra:** Azure, AWS, GCP, Kubernetes, Docker
Frontend: React, TypeScript | **Backend:** Python, C#, Java, PostgreSQL**,** REST | **Product:** Rapid prototyping | **Projects:** Lead Tracker CRM (Salesforce-like CRM to manage leads, track phone calls, and measure conversion pipelines: React, Python), Financial Recon Dashboard (Ops dashboard to reconcile AR against bank statements: React, Python), Interior Design Agent (AI agent for personalized furniture recommendations: LangChain)

EXPERIENCE

OCTAVE — Therapy practice offering behavioral health care to clients across 30+ states **Seattle, WA**
Technical Product Manager, Platform & Automation **Feb 2024 – Jun 2026**

- Led design and implementation of AI-assisted onboarding workflows integrating Zendesk, Tellescope, and internal systems, reducing onboarding time by 25%, eliminating 100+ monthly operational hours, and saving $600K annually (Project Link).
- Designed and launched a scheduling platform integrating Google Calendar and Nylas APIs that increased provider availability by 1.5× and contributed approximately $2M ARR (Project Link).
- Built and scaled workflow automation supporting 10K providers using Tray.ai agentic workflows and CRM integrations, reducing manual operations by 50% (Project Link).
- Served as technical lead for a provider directory platform receiving 150K+ monthly visits, redesigning backend data architecture and improving availability to 99.9% (Project Link).

MICROSOFT — Azure Commercial Marketplace **Seattle, WA**
Software Engineer II **Aug 2019 – Oct 2022**

- Owned two revenue-critical ingestion services responsible for processing $4B+ in commercial product revenue.
- Built customer-facing pricing management experiences using Angular and TypeScript for 30+ Microsoft tenants, delivering frontend functionality and backend integrations supporting Azure Marketplace revenue operations.
- Improved performance of the platform's highest-traffic experience by 75% with backend query optimization and observability.
- Created an end-to-end Azure pre-production environment to run a test harness to catch defects before they reach production.
- Drove cross-collaboration with Shanghai team to migrate all price-publishing services from Azure Cloud Services to Azure Kubernetes in 3 months. Created documentation to guide the team through Docker and YML setup, deployment, and testing.

MATCHA — AI-therapist matching platform **Seattle, WA**
Lead Technical Consultant (part-time) **Nov 2021 - July 2022**

- Onboarded team to Docker, Heroku PAAS, Github CI/CD, and AWS (IAM and S3), in preparation to migrate to AWS PAAS.
- Led development of a React/Django marketplace platform from MVP to launch within six months, helping secure $250K in seed funding and serving 100+ patients through a network of 50 therapists.
- Led weekly tech syncs with CEO, engineering, design, data and PM team and provided insight for key early-stage business decisions (storage, compliance, devops infrastructure, security).
- Collaborated with other early-stage startups to make foundational decisions related to scalability, efficiency, and privacy.

MICROSOFT — Azure Commercial Marketplace **Seattle, WA**
Technical Program Manager II **Oct 2022 – Jan 2024**

- Mitigated $65M in annual revenue loss by leading adoption of the Commerce Manifest declarative API for all Azure teams to efficiently submit pricing updates and avoid undercharging B2B customers.
- Developed and operationalized an Azure-wide S360 KPI to track Commerce Manifest adoption by team. Oversaw successful KPI implementation for 30 Azure teams and resolved 3,000+ pricing discrepancies.
- Empowered Engineering to exceed monthly OKRs for reliability and performance in our price-publishing engine. Maintained > 99.99% API reliability and all APIs in SLA to publish pricing changes within 3 business days.

EDUCATION

DUKE UNIVERSITY **Durham, NC**
Bachelor of Science, Major in Computer Science, Minor in Psychology **2015 – 2019**
